

REFLEX INTEGRATION

Developing the Brain from the Bottom Up!

Level I and II Trainings

Class Objectives

- ✓ Understand how sensory systems and primitive reflexes affect *learning, behavior, anxiety, fears, and focus.*
- ✓ Learn how to identify when crucial primitive reflexes are not fully integrated by observing movement patterns and behaviors.
- ✓ Explore and play with hands-on tools to use with children to help them integrate primitive motor patterns that are interfering with physical and emotional development and learning.
- ✓ In Level II, continue to explore all the above and in addition, understand the relationship between reflex integration and language development, writing, reading, and so much more!
